How to make more out of the EM-220

EM-220 Accessories:

Carry Case

Card reader

Wallmount bracket

Cradle

Barcode scanner

Rear Camera

And many more...

EM-220 Accessories

Carry Case

With this excellent and ergonomic carry case you are able to carry the EM-200 wherever you need it. It has a comfortable handstrap and is made for one hand mobility. The carry case comes with a holder for the stylus pen, which is fixed on the carry case. This accessory allows to use the EM-200 for many different purposes e.g. medicine, hospitality, logistic or event services.

Wallmount Bracket

The wallmount bracket is easy and fast installed. It allows using the tablet for example as digital signage or monitor, where different applications with or without touch can be shown. Furthermore it's possible to use as Pole Mount or Shelf Mount. It can be used for many different environments without limits.

Cradle

The cradle is the charging station for the EM-220. The cradle has a second battery slot which can charge the main battery. That means the EM-220 can be used with and without power supply (e.g. as Self Ordering System, Back-Up POS Terminal). The EM-220 can also be filled in when carry case is installed.

EM-220 with Jacket and add-on MSR (Card reader)

The carry case combined with MSR will enlarge the possibilities and flexibility for the EM-220 enormously. It is extremely easy useful for loyalty, payments or check-in purposes.
